

Tuesday 13.08.2024

Responsible persons - Mrs. Tomaskova, Mr. Plavka, Mr. Smisek

Clinical part

- Morning handover of patients
- Ward rounds, involvement in the care process newborns and their clinical assessment condition
- Providing comprehensive care for newborns in the NICU (both nursing and medical care, cooperation with team members in the department)
- Participation in grand rounds

Theoretical part

- Nursing care for ventilated newborns – important principles (handling, weaning, positioning, oxygen management, parental involvement)

Taking into account the possibilities and conditions at NPH (different ventilators, circuits, knowledge of oxygen management, weaning from oxygen therapy, lack of staffing).
